

Please note:

1. These lists are not exhaustive.
2. Don't assume that the canned and (dry) versions of a food will be similar in nutrient content.
3. Different flavors of the same food can be very different in nutrient content. If these lists specify a flavor, they refer to that flavor only.
4. These lists were updated November, 2017. The nutrient content of diets can change very often so this will be out of date soon. Check with the manufacturers for up-to-date information frequently!

Product (in order of decreasing sodium content)	<u>Nutrients of Concern (/100 kcal)</u>				
	Calories/can or cup	Sodium (mg)	Potassium (mg)	Magnesium (mg)	Protein (gm)
